Subject: FMC Independent Review -- Need to poll your availability for future calls/meetings/site visit
Deliberative

Categories: Lepic 4/19 to 5/2, Lepic 2/22 to 3/22

All,

As we discussed yesterday, we need to ID your availability for a handful of calls, a meeting, and a site visit with the Tribes' representatives over the next 4 months. Once I get your input, I'll plan to ask the Tribes' reps for affirmation of their availability. Note that I had put forward several questions related to availability to them through Jill Grant on Tuesday, however given their apparent focus on trial preparation I want to be as proactive as possible if they don't respond to the inquiry Jill committed to making, say, by tomorrow afternoon. Please email me your availability for the following, as applicable. **If you're unavailable for any dates listed for items 1-3 below, please identify 1 or 2 alternative days/times that same week:

1. Monthly standing check-in calls (all except Kevin):
 - April 24th, 2:30-3:30p ET
 - May 22th, 2:30-3:30p ET
 - June 26th, 2:30-3:30p ET
 - July 17th, 2:30-3:30p ET
2. Conference Call to begin discussing Tribes' feedback on 3/7/2014 draft project plan and attachments, including draft Argonne work order (all except Kevin):
 - April 10th, 2:30-4:30p ET
3. In Person Meeting (Chicago, Salt Lake City or Denver) if #2 isn't sufficient to substantially discuss and reconcile Tribes' feedback on draft project plan and attachments, including draft Argonne work order (all except Kevin and Mike):
 - May 8th All Day (plus travel time before and after) OR
4. Site visit to FMC OU/Pocatello, ID with Argonne's Independent Review Team after work order provided to them and they select/assemble team members (all except Mike; reserve potential for TIFSD participation to be one or the other of Linda and Greg to simplify scheduling challenges; also need to verify Argonne team availability later on):
 - Week of June 2th (One full day in Pocatello plus travel time before and after) OR
 - Week of June 9th (One full day in Pocatello plus travel time before and after)

Thanks,

Greg
